

## Emerging Trends Committee 2020 Workplan

### Committee Draft Charter

#### Overall Roles and Responsibilities:

The CPUC Committee on Emerging Trends is responsible for recommending policies, actions, and work products to better position the CPUC to respond to the needs of the public in the face of emerging utility issues and trends.

#### Objectives:

- Increase public understanding and CPUC transparency in order to engage the public in Commission decisions and activities.
- Facilitate diverse stakeholder and public participation and effective and efficient complaint resolution.
- Improve CPUC decision-making and work planning to anticipate and incorporate emerging trends that affect the CPUC's ability to fulfill its mission, strategic directives, and meet state goals.
